Important Reminder: Diabetic Care Coordination

Arkansas Health & Wellness is committed to improving the health of the community by helping people with diabetes lead healthier lives. Because of your vital role in patient health, we are asking for your help in facilitating preventive care through annual diabetic eye exams and reporting of exam findings.

Routine retinal evaluation is recommended to reduce the risk of diabetes-related blindness. While exams do not require prior authorization, please be sure to adhere to Arkansas Health & Wellness clinical policies regarding medical necessity.

Please reference plan specifics and applicable billing guidelines when selecting the most appropriate CPT code for services rendered.

Using these codes may help reduce the need for medical record reviews.
