Facility-Based Provider Directory

In-Network Facility-Based Physicians

This document is a listing of facility-based physicians, organized by specialty, who are in-network for Ambetter and practicing at an in-network hospital. The listing includes separate sections for radiologists, anesthesiologists, pathologists, emergency department physicians, neonatologists, and assistant surgeons. Contracted facility-based physicians are in-network for all Ambetter health benefit plans.

Important Notice about Certain Facility-Based Specialists

When receiving care at a network hospital or other facility, it is possible that some providers who work in the hospital or facility (for example, anesthesiologists, emergency room providers, radiologists, pathologists) may not be under contract with Ambetter as in-network providers. These non-network providers cannot bill you for the difference between what Ambetter will cover and the provider's billed charge for the services you receive. This practice is known as "balance billing." Providers may only bill you for the difference if a notice and disclosure statement were signed ten days prior to the date you received care.

We encourage you to inquire about the providers who will be treating you before you begin your treatment so you can understand their network status with Ambetter. The list below represents our most recent information. Please call Member Services at 1-877-687-1196 (Relay Texas/TTY 1-800-735-2989) for the most current provider information.

Call Ambetter Member Services at 1-877-687-1196 (Relay Texas/TTY 1-800-735-2989) for the most current provider information.

Make sure to bring your Ambetter member ID card when you receive medical care.
